PROPERTY DESCRIPTION

When this home was built in 2006 the owners worked long and hard to think of everything they could to make the house not just a house, but truly a home where all the worries could be left at the door. Thus we can say with assurance that maintenance is no problem; the home is all Brick with Vinyl wrapped trim for zero maintenance. There are Anderson Doors and windows too, so great no maintenance, energy efficiency and style. The front entry door is oversize (4 feet wide by 8 feet tall) and has a triple lock system (Locks/latches) to assure your safety and security. The driveway is concrete, extremely long and two cars wide.... Consider when you have company in and they might worry about "Well, where will we park?" Not a problem for them or you with this home. The garage is an oversize two car and beyond it is even more concrete parking for a boat or camper.

From the moment you walk up to the front door, which is a spectacular four feet wide by eight feet tall, you feel you have arrived! Step through the door and you will continue to feel this way. You will be in the wide and spacious Foyer with gorgeous hardwood floors and nine foot ceilings. To your right is the dining room with room for a table and chairs for ten, plus a china cabinet at the end of the room and an alcove for an additional side table. The Dining Room has 9 ft ceilings, crown molding, a chair rail and Hardwood floors

Directly ahead of you when you entered is the warm and friendly family room with a step down to allow a ten foot ceiling. The Family room has a surround sound system, Gas Fireplace and Transom windows. (Want to know a little secret?) Behind the picture over the mantel is a recess for your TV or whatever else you might want to use it for. Maybe you could put a hidden safe there?! Just like in the movies!

The entire home's first floor has nine foot ceilings, except the family room which has ten foot ceilings. The warm and welcoming hardwood floors are also though most of the first floor.

The kitchen is a gourmet's delight. Again, planning has paid off! Imagine yourself planning and preparing your own intimate meals, or preparing for a large dinner party. From the Convection oven and Microwave to the Ceramic smooth cook top to the extra deep double sinks, Corian counters, large refrigerator (all appliances are Stainless Steel). Then, time for clean-up? Use your dual full size dishwasher to make clean up a snap. Look at all these fabulous custom made cabinets with the smooth and easy access. Think you still don't have enough storage space for all your Pots, pans, dishes and food supplies? Well step into the pantry! It is huge and with the nine foot ceilings you have room to pace virtually anything you could have or imagine having. Never a worry about having put something away in the garage because you didn't have a place for it in the kitchen.... It's right here and easily accessible when you need it!
